

# SCINTILLATION 2021

## National Level Students' Project Competition

### About the Competition

Scintillation, a popular and well-known competition organised by Bajaj College of Science, provides platforms to science undergraduates since 2015, where every event witnessed the efforts of more than 400 science students. Scintillation 2021 offers an online National platform for undergraduate students to present their abilities to do science via projects. Sole aim of this programme is to tinker students' minds for experiential learning and to promote research culture amongst students. Competition aims to stimulate cognitive and psychomotoric skills after a dormant phase of pandemic.

### Competition Glimpses

- National Platform for science undergraduate students
- Complete online process of participation
- Four streams for participation
- Individual or maximum two participants per group
