

### About the Department:

Chemistry is the central science. Its applications encompass all the aspects of human civilisation. Since many decades the subject has offered wide scale career opportunities to young and innovative minds. With a very clear vision of nation building, the chemistry department of Bajaj College of Science was established by the management of Shiksha Mandal in 1962. Since its establishment, the department is known for its quality teaching and has made enormous progress in academics and research. Today the department has 10 permanent faculty members and 2 contractual faculty members. All are professionally qualified. Eight of the faculty members hold PhD, five have qualified CSIR-NET and six have qualified SET exams. The faculty members command high level of respect amongst students because of their excellent teaching and student-friendly nature. Besides teaching, faculty members are also involved in research activities and have published papers in National and International peer reviewed journals. Some have successfully completed minor research projects funded by UGC. The department have been recognized as a place for higher learning and research.
