hello

No

There is an urgent need of students committee in the college which should be interfacing and interacting between students and college..! They should have certain responsibilities and rights. I personally feel that there is a huge communication gap between college and it's students which is soo poor for any College. And I have never seen principal of our college trying to communicate with students, in fact when I joined the college we didn't even had our orientation session with the principal.

Summary is we need students committee in our college.

The RAM of computers in computer lab should be atleast 4 GB, as they are very slow in working.
