Feedback on Curriculum
2020-21
Action Taken Report**

Feedback on curriculum has been taken from students, teachers, and alumni. It is analyzed by the feedback committee and the feedback is discussed in the common meetings. The feedback is used for the development of college as well as for curriculum.

After taking feedback from students, teachers, and alumni certain points were discussed and solutions were provided for them.

Action Taken Report: Student

Feedback/ Particular	Action Taken
Requested for recorded lectures.	During the pandemic, the college has conducted online lectures on ZOOM platform. As Students requested for recorded lectures, we have instructed all teachers to record online lecture & upload it on MOODLE site
Requested to change paper pattern & give them exam preparation leave.	As we know, the Pandemic period is the toughest one for everyone. Students attending lectures virtually. It's very difficult for them to face exams in a regular examination pattern. So, considering request from many students & after discussing with Board of examination we have decided to change the examination pattern.
A library book should be given to us for two weeks except one. The books given by the librarian should be for more days so that students can read it thoroughly.	Although 15 days return period given to all students, we have communicated librarian to give grace period to needy students
Suggested to increase store of general knowledge, current affairs, competitive examination books in library.	The library is well equipped with all types of books. We have asked and communicated librarian to increase stock of current affairs, competitive examination books
There should also be the classes on Bussiness & investment. It will help in financial stability.	Most of the departments have collaborated with good institutions and industries for various academic and research activities. Some of them have even signed MoUs with the college. As students showing interest, we have planned to start certificate course on Business & Investment.

Students requested to invite different companies for campus placement. Mock interviews, test should be taken.	Training & placement cell organized training programme to develop communication skills and soft skills of students. Tests were conducted depending on the nature of the job and domain of the recruiting companies. Also planned to invite many reputed companies for campus placement.
Requested to talk about different career options related to the subject & ask to motivate the student for the competitive examinations.	Competitive Exam Cell has been constituted to take care of Advanced Learners preparing for competitive exams like CSIR-NET, IIT JAM. Many students got benefited and qualified the exams.

Action Taken Report: Teacher

Feedback/ Particular	Action Taken
Review/ updating of the syllabus should be aligned with recent trends and needs to maintain the relevance and effectiveness of education.	Each Department has the Board of Studies (BoS). BOS meeting twice a year. Feedback Suggestions from all faculties Considered to strengthen curriculum. Inputs forwarded to the committee for taken for revision of syllabus.
Syllabus is very bulky. To cover / teach properly in given time (theory period) is difficult.	As students also suggested to dilute bulkiness of syllabus. We have asked all BOS Chairman to remove repeated & irrelevant contents from curriculum.
Focus on knowledge, skills enhancement, and student friendly type of educational system not on theory lectures	Most of the departments have collaborated with good institutions and industries for various academic and research activities. Some of them have even signed MoUs with the college.
Need to work to add more applied content as per the demand of the time.	The institution is satisfied with the teachers' response in this parameter and encourages them to keep updating themselves in their respective disciplines by participating in FDPs, Seminars, Workshops.
