A Report on

**Hands on training workshop on “ICT Learning Environment Blended
Mode of Teaching of Gnomio”**

The Information and Communication Technology (ICT) is an umbrella term that includes any communication device or application, encompassing radio, television, cellular phones, computer, network hardware and software, satellite systems and so on. Such technologies are used for educational purposes, namely, to support and improve the learning of students and to develop learning environments. ICTs in higher education are being used for developing course material; delivering content and sharing content; Communication between learners, teachers, and the outside world.

A massive open online course (MOOC) is a category of online course/ tool that helps teachers to connect with their students online and share information and resources with them easily. Similarly, Students get benefitted as they can-

- Join many courses to gain additional knowledge.
- Review Lecture videos/PPTs and online content till their satisfaction
- Post their queries online without hesitation.
- Quick access to eBooks
- Upload their assignments and test.
- Participate in chats and forums.
- Attempt quizzes.
- Access to the course material anytime, anywhere
- Can be a part of continuous learning.
- Submissions and other records are available for future references.

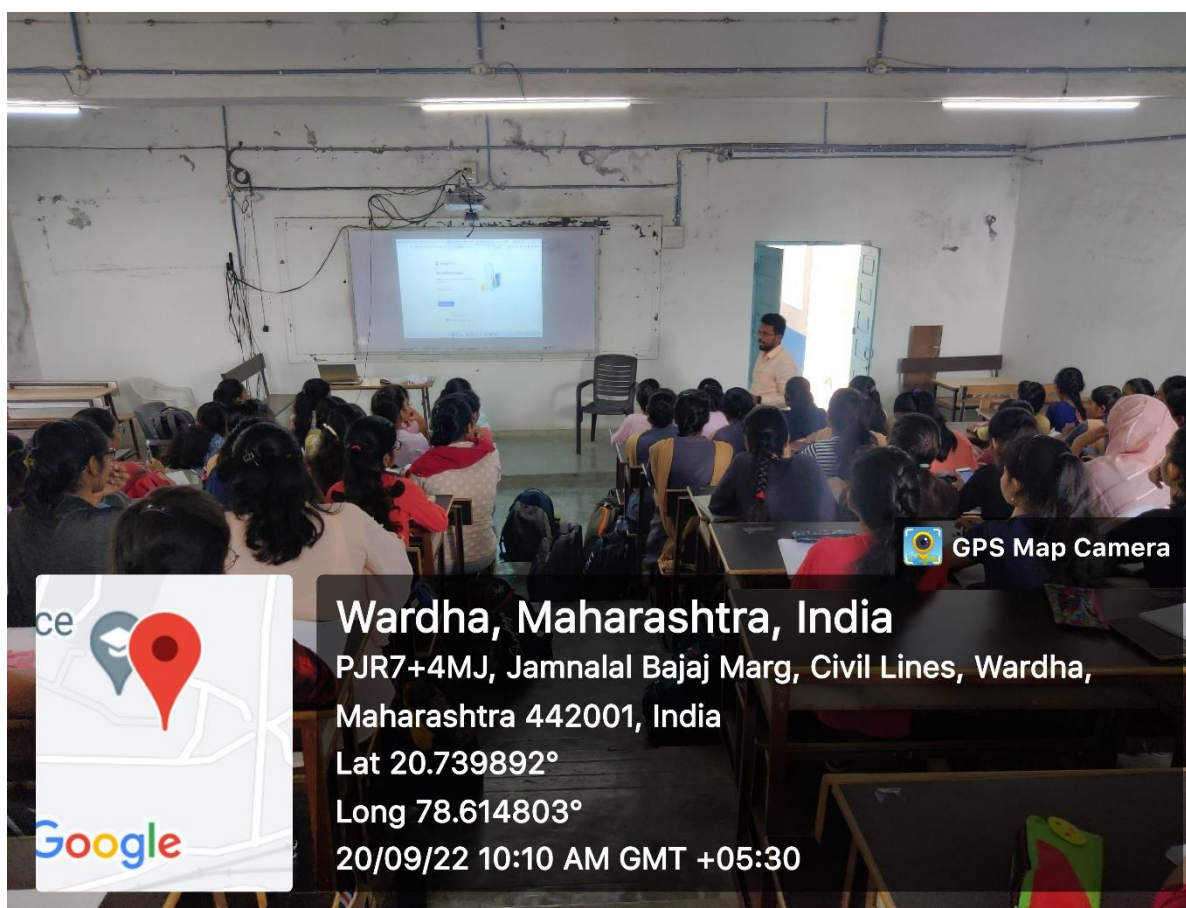

To create blended mode of teaching environment, the Department of Chemistry, Bajaj College of Science was organized Hands on training workshop on “ICT Learning Environment Blended Mode of Teaching of Gnomio” for UG & PG students on 19th September 2022. Mr. Manoj D. Bansinge, Assistant Professor, Department of Chemistry, Bajaj College of Science, Wardha was resource person, aimed at making students feel at ease to use Gnomio MOOC platform

and be able to use its multidimensional features and functions to better connect to blended mode of teaching learning from a distance. All aspects of this tool were covered in the workshop including how to login to Gnomio site as a student, course access, assignment submission, quiz attempt, access to grades, etc.

All together more than 90 students from UG & PG attended the workshop. The session was highly informative and educative to the learners. The students raised a variety of questions to the speaker to which he answered with unwavering enthusiasm. Programme was concluded with the vote of thanks delivered by the Dr. M. A. Haque, Assistant Professor, Department of Chemistry, Bajaj College of Science, Wardha.
