Report of Science Model Competition and Exhibition

The Science Model Competition and Exhibition were organized in celebration of National Science Day, 2024, to foster scientific creativity, innovation, and curiosity among participants. The event provided a platform for students and science enthusiasts to showcase their ingenuity and scientific knowledge through interactive models and exhibits. The event was organized by the Zoological Society, Botanical Society in association with RICH Club and IIC, Bajaj College of Science, Wardha.

More than 80 Participants from XI std., UG and PG students were invited to submit innovative science models addressing various scientific concepts, ranging from physics and chemistry to biology and environmental science. Entries were evaluated based on creativity, scientific accuracy, presentation, and relevance to real-world applications.

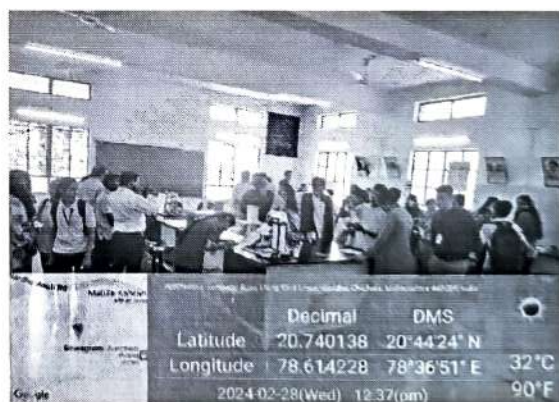

The event featured a diverse range of science exhibits and demonstrations showcasing cutting-edge research, technological advancements, and scientific principles. Exhibitors included educational institutions, research organizations, and industry partners, offering hands-on interactive experiences for visitors. A panel of esteemed judges comprising senior college teachers evaluated the models based on predefined criteria. Awards were presented to the top-performing participants in different categories, recognizing their exemplary contributions to science and innovation. Throughout the exhibition, interactive sessions were conducted on various scientific topics, providing attendees with opportunities to engage with experts, ask questions, and participate in science-based activities. These sessions facilitated knowledge exchange and encouraged dialogue on pressing scientific issues and advancements.

Key Outcomes of the event are as follows:

- Encouraged scientific curiosity and innovation among participants, fostering a culture of scientific inquiry and exploration.
- Provided a platform for students and science enthusiasts to showcase their creativity and knowledge in various scientific disciplines.
- Facilitated knowledge exchange and dialogue on pressing scientific issues and advancements through interactive sessions and exhibits.
- Promoted interdisciplinary collaboration and networking among students and educators

The Science Model Competition and Exhibition organized on the occasion of National Science Day, 2024, succeeded in celebrating the spirit of scientific inquiry and innovation while promoting public engagement with science and technology. The event served as a testament to the creativity, talent, and dedication of participants and underscored the importance of fostering a scientifically literate and innovation-driven society. Such initiatives play a crucial role in nurturing future leaders and problem solvers who will shape the world through science, technology, and innovation.
