

❖ Department Of Environment Education & Water Security

The Department of Environment Education & Water Security stands as a beacon of awareness, sustainability, and innovation. With a well-maintained Eco-Garden, water conservation projects, and active participation in governmental programs, the department provides students a unique platform to learn about environmental responsibility and take hands-on initiatives for a sustainable future.

HIGHLIGHTS OF THE DEPARTMENT

In the realm of Environment education and water security ,where learning grows from the roots of nature and blossoms into responsibility.

Eco-Garden & Tree Plantation- Students actively participate in planting trees, maintaining eco-gardens, and promoting greenery on campus.

Government & Community Programs- Participation in “Harit Maharashtra,” “Swachh Evam Harit Vidyalaya Rating,” and other state/national programs for environmental awareness.

Skill Development & Awareness- Workshops, seminars, and hands-on projects to help students understand ecosystem protection and sustainable practices.

ACHIEVEMENTS OF THE DEPARTMENT

Our students have successfully conducted:

- Tree Plantation Drives & Awareness Campaigns.
- Participation in National Environmental Programs such as “Ek Ped Maa Ke Naam” and “Harit Maharashtra.”
- College-Level Awareness Programs on Plastic Eradication and Waste Management.

ACTIVITIES

- **Eco Garden Development**– Students actively maintain and enhance the eco-garden.
- **Parsabag Tree Plantation** – Participation in government tree-planting programs.
- **Clay Idol Making Workshop** – Eco-friendly Ganesh idols using natural materials.
- **Environmental Awareness Programs**– Workshops, campaigns, and participation in state/national initiatives.
- **Water Analysis Project** – Campus Water Point – Testing and analyzing the quality of water available on the campus to ensure safety and promote awareness about water resources.
- **QR Code Creation Project** – Students create QR codes for educational and awareness purposes.
- **Biodiversity Project** – Plants – Observation, identification, and documentation of plant species within and around the campus
